GEORGE GOD'S LOVE NKWACHUKWU

PROFESSIONAL SUMMARY

I am result driven amidst coding issues, i learn from my failures, that's an undeniable passion, i am a team player, i code for an unquenchable burning desire

A hardworking and reliable frontend engineer focused on going above and beyond to support the team and serve customers. Trained in software development and offering top-notch frontend abilities. Motivated to continue to learn and grow as a professional software engineer and will stop at nothing to impact the world with my skills.

Dedicated frontend engineer focused on completing work quickly to consistently exceed targets. Reliable team member accustomed to taking on challenging tasks.

Results-oriented frontend engineer with advanced coding skills and aptitude for translating project requirements into unique and functional applications and components. Successfully strategizes and executes a full development lifecycle, meeting requirements and established timelines. Exceptional technical analysis and troubleshooting skills.

PERSONAL INFORMATION

Date of Birth: 6th Feb. 2000
Relationship: Single
Contact: 07089938649, 07015582135
Email Address: slovetech619@gmail.com
Address: Green Plaza, Beside Corner Stone Lab, School Bus/Stop, Ajangbadi, Ojo, Lagos.

SKILLS ACQUIRED

- Quality assurance
- Website optimization expert
- Technologies skilled with: Reactjs as my Core Strength, Ecmascript 2016 and latest
- Typescript
- Technical analysis
- Nodejs / Expressjs, Npm Engineer, Git & Github Maintenance
- RESTFUL APIs, Css3, Tailwind, Bootstrap, Sass
- Sql Database Management
- Customer relations
- Analytical thinking
- Coordination
- Problem-solving
- Research Oriented, Result Freak
- Socializing
- Task prioritization
- Public speaking

- Debug code issues
- Collaborative planning
- Serve customer needs
- Teamwork
- Collaboration
- Verbal communication

EXPERIENCE

Frontend Engineer, GeoTravel Company
- Updated web pages and navigation tools to meet the client's current needs and improve usability.
- Improved coding of Advanced JavaScript and CSS to enhance user experience and functionality.
- Continuously studied and improved abilities with wide range of web technologies, design tools and programming practices.
- Worked on back end to develop server logic protocols and manage database connections.
- Used coding skills to build prototype sites according to designer vision.
- Collaborated with design team to create attractive and user-friendly websites.
- Created sites and implemented special features to achieve functionality outlined in project designs.

Front End Engineer, contract based
Feb 2021 - June 2021

- Analyzed project requirements, translating specifications into functional application components.
- Coded, tested, debugged, documented and implemented software applications.
- Continuously studied and improved abilities with a wide range of web technologies, design tools and programming practices.
- Gathered and evaluated the technical requirements for each site to produce the best code.
- Updated web pages and navigation tools to meet the client's current needs and improve usability.
- Improved coding of JavaScript and CSS to enhance user experience and functionality.
- Produced code in programming languages such as Reactjs and Nodejs to create the most effective and clean websites.

Front End Engineer, contract based
Jun 2020 - Feb 2021

- Updated web pages and navigation tools to meet the client's current needs and improve usability.
- Improved coding of JavaScript and CSS to enhance user experience and functionality.

- Continuously studied and improved abilities with wide range of web technologies, design tools and programming practices.
- Worked on back end to develop server logic protocols and manage database connections.
